RE: Industrial Area Sampling and Analysis Plan (SAP) Addendum #IA-03-15 IHSS Group 700-7 (B779) - Approval

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the SAP#03-15 for IHSS Group 700-7, dated October 2003, received October 16, 2003. Based on the information provided, the Division is hereby approving this SAP for IHSS Group 700-7, with the following comments:

- Figure 2 shows results for 3 samples (779NW, 779NE, and 779SW) that appear to have been collected east of the B779 basement. All of these appear to have radiological contamination above action levels, yet none of these locations are discussed in Section 2.0. As such, remedial activity is expected to occur in this area with appropriate confirmation sampling.
- Water encountered during the performance of this SAP is expected to be properly collected and sampled for analytes of concern, not only for proper disposal as indicated, but to also identify possible groundwater and soil contamination concerns.
- This investigation will collect and analyze concrete samples as appropriate for disposal as indicated, as well as for possible environmental determinations.
- Additional sample locations, besides the three already identified, may need to be included in IHSS 149.2.

These and any other issues that may arise during the performance of this SAP should be resolved utilizing the consultative process.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, David Kruckek at (303) 692-3328, or Elizabeth Pottorff at (303) 692-3429.

Sincerely,

Steven H. Gunderson
